Sole Source Letter

This letter is to provide notification that iLevel Ergonomics Spinal Brace Manufacturing Canada is the sole source provider of the world's only existing © Wearable Comfort Smartphone Ergonomics Docking Station and the ProperviewErgonomics™ Technology, a lightweight user-fulcrum lever(s) suspension strap system that:

- prevents musculoskeletal disorders resulting from poor posture (forward head posture) smartphone viewing
- Immobilizes clavicle area
- reconditions non-ergonomic smartphone viewing
- is great for corrective rehabilitative and post-recovery conditions.

The user-fulcrum component of the technology is inserted and secured inside of an FDA/ Health Canada/ E.U Certified Clavicle Orthosis, and will rest comfortably on the shoulders/trapezius of a wearer when fastened properly. The natural downward suspension occurring at the rear of the wearer develops a system to match the demands of viewing smartphones and medically prescribed mobile ergonomics viewing standards to human capabilities.

As a result of our investment in innovation (User Analysis, Applied Kinesiology, Time Study, Methods Analysis, Meta Analysis, Focus Group, Ethnographic Analysis, Task Analysis, Kansei Engineering, Surveys, Questionnaires, cognitive walk through, Eye Level Viewing Instruction Guide(s), Development of a new medical standard of care and documentation) we have created a portfolio of intellectual property rights that include:

- ✓ Domestic and International Patent(s)
- ✓ Trademark(s)
- ✓ Copyright(s)
- ✓ Trade Secret(s)

We are the only manufacture in the world with the unique technical competence, expertise, experience and proprietary knowledge in the application of the *Orthosis, wearable ergonomics docking station™* as-well-as the aerospace engineered design and manufacture of the user-fulcrum suspension lever(s); of the billions of smartphone operatives globally there exist only one **Human Factors Engineered Wearable Mobile Ergonomics Health Technology.**
